(Application of Accounting Standard for Revenue Recognition)

The "Accounting Standard for Revenue Recognition" (Accounting Standards Board of Japan (ASBJ) Statement No. 29, March 31, 2020) was adopted from the beginning of the first quarter of the current fiscal year and recognized revenue when control of promised products or services is transferred to customers in an amount that is expected to be received in exchange for those products or services.

The Chiba Bank follows the transitional treatment stipulated in the provisions of paragraph 84 of the Accounting Standard for Revenue Recognition, but there was no impact on the quarterly consolidated financial statements.

(Application of Accounting Standard for Fair Value Measurement)

The "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30, July 4, 2019) was adopted from the beginning of the first quarter of the current fiscal year, and in accordance with paragraph 8 of the Accounting Standard for Fair Value Measurement, the method of adjusting the fair value of derivative transactions were revised to maximize the use of observable inputs estimated from derivatives, etc. traded in the market. This revision was made in accordance with the application of the Accounting Standard for Fair Value Measurement. According to the transitional treatment stipulated in paragraph 20 of the Accounting Standard for Fair Value Measurement, the cumulative effect of the new accounting standard adopted retrospectively prior to the beginning of the first quarter of the current fiscal year is reflected in retained earnings at the beginning of the first quarter of the current fiscal year.

As a result, retained earnings at the beginning of the first quarter of the current fiscal year decreased by ¥639 million, trading assets decreased by ¥170 million, other assets decreased by ¥1,033 million, trading liabilities decreased by ¥12 million, other liabilities decreased by ¥271 million, and deferred tax assets increased by ¥280 million.

In addition, in accordance with the transitional treatment stipulated in paragraph 19 of the Accounting Standard for Fair Value Measurement and paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019), the Bank decided to adopt a new accounting standard stipulated by the Accounting Standard for Fair Value Measurement in the future.

As a result, domestic stocks and investment trusts, which are included in other securities, were changed from the market value method based on the average market prices during the month prior to the end of the first quarter of the current fiscal year to the market value method based on the market prices at the last day of the first quarter of the current fiscal year from the end of the first quarter of the current fiscal year.
