## 1. Summary of the Consolidated Business Results

### (1) Summary of the Consolidated Business Results

Looking back at the Japanese economy during the first three months of fiscal year 2025, despite the continued uncertainty due to factors such as continued price increases and U.S. trade policies, the economy has been recovering moderately due to improvements in employment and income conditions.

Looking at financial conditions, the uncollateralized overnight call rate remained in the 0.40% level through the period. Secondary yield of long-term government bonds gradually fell from the high 1.40% to the lower 1.10%, but hovered around 1.40% toward the end of the period. The Nikkei Stock Average temporarily fell from the high 35,000-yen's to the lower 31,000-yen's, but later recovered to over 40,000-yen level toward the end of the period.

The Chiba Bank Group believes that its purpose as a corporate group is to provide not only functional value centered on financial services such as deposits, loans, and exchange, but also social value such as contributing to solving local issues. To share our thoughts with our customers, shareholders, employees, and all other stakeholders to continue to be close to each person and company in the community, and to make the community “a place where our stakeholders' hopes can come to life,” we have defined the Purpose as “to create a local community better suited to bringing each person's hope to life”.

For the Purpose, the Bank Group has set the Vision as “an Engagement Bank Group that works closely with the community” and aims to be “a Bank Group that seeks to keep growing together along with the entire region by providing value through deep connections with all of its stakeholders including customers, shareholders, and employees”.

Under such financial and economic environment and management policies, financial results for the first three months of FY2025 were as follows.

Ordinary income was 102,755 million yen, an increase of 14,736 million yen compared to the previous year, mainly due to an increase in interest income. Ordinary expenses were 71,685 million yen, an increase of 12,395 million yen compared to the previous year, mainly due to an increase in interest expenses.

As a result, ordinary profit was 31,070 million yen, an increase of 2,340 million yen, while profit attributable to owners of parent was 21,783 million yen, an increase of 1,751 million yen compared to the previous year.

### (2) Summary of the Consolidated Financial Conditions

Total assets as of June 30, 2025 were 22,249.4 billion yen, an increase of 618.1 billion yen compared to March 31, 2025. Figures for the Bank's major accounts were as follows.

The balance of deposits as of June 30, 2025 was 16,288.0 billion yen, an increase of 36.1 billion yen compared to March 31 2025, mainly due to increased retail deposits. This growth reflects our continued efforts to provide a full range of financial products and services as a means to encourage customers to make the Chiba Bank their main banking institution for household needs. The Bank also continued to proactively respond to the funding needs of its customers. As a result, the balance of loans and bills discounted as of June 30, 2025 was 13,491.3 billion yen, an increase of 308.2 billion yen compared to March 31, 2025. The balance of held of securities was 3,231.7 billion yen, an increase of 52.7 billion yen compared to March 31, 2025.

### (3) Explanation of the Consolidated Earnings Forecast

There are no changes to the FY2025 Earnings Forecast released on May 8, 2025.

Note: The aforementioned forecast is based on presently-available information and assumptions coming from the judgment, assessment, and recognition of facts at the current point in time. Actual results may differ materially from the forecast based on a wide range of potential factors. If the earnings forecast requires any revisions, they will be promptly announced.
