ended September 2000	84,381	(241,990)	26,396	132,706
For the Fiscal Year 2000, ended March 2001	278,356	(399,040)	12,731	156,060

(4) Scope of Consolidation and Application of the Equity Method

- Number of consolidated subsidiaries: 11
- Number of non-consolidated subsidiaries accounted for by the equity method: 7
- Number of affiliated companies accounted for by the equity method: 0

(5) Changes in Scope of Consolidation and Application of the equity method

Consolidation: Newly consolidated 0, Excluded 0
 Equity method: Newly applied 0, Excluded 0

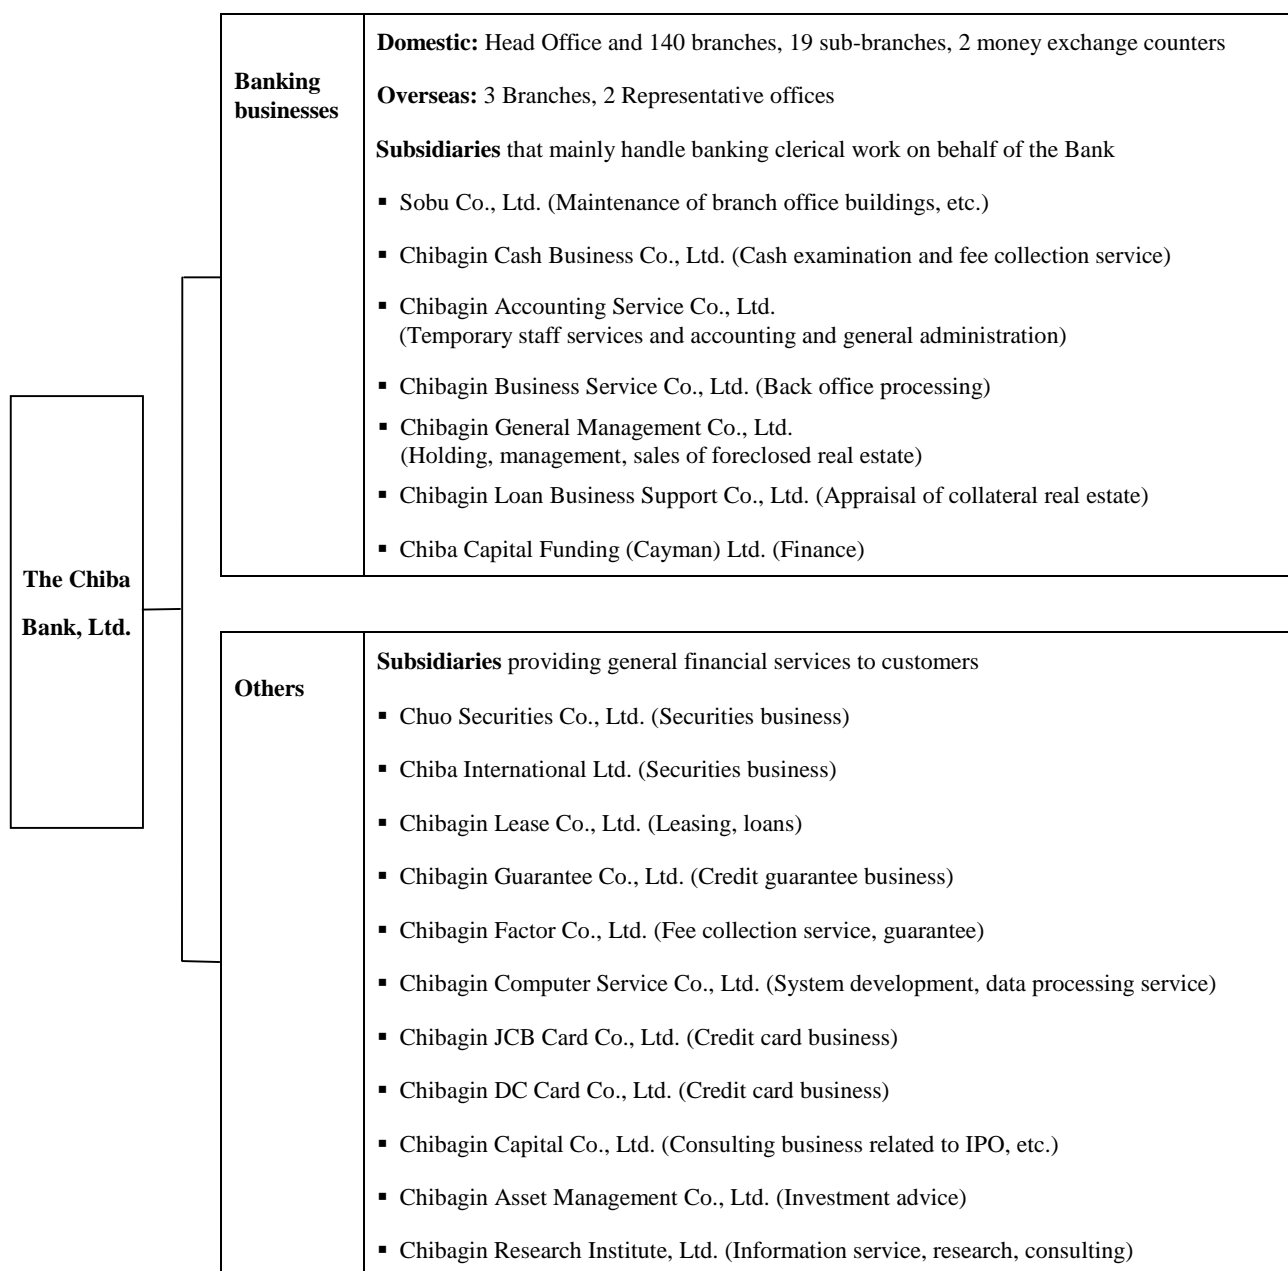

2. Performance Forecast (for Fiscal 2001, ending March 31, 2002)

	Ordinary Income	Ordinary Profit	Net Income
	¥ million	¥ million	¥ million
Fiscal Year 2001 ending March 2002	210,000	16,000	8,500

(Reference) Forecasted net income per share for Fiscal 2001 is ¥10.09.

Overview of the Chiba Bank Group

The Chiba Bank Group mainly provides banking services, together with other financial services in the fields of leasing and securities business, etc. The Group is composed of The Chiba Bank, Ltd. (the “Bank”) and 18 subsidiaries.

Chibagin Staff Service Co., Ltd. changed its name to Chibagin Accounting Service Co., Ltd.

Management Policies

1. Basic Management Policy

As a regional bank based in Chiba Prefecture, the Bank provides a variety of financial services to meet customers' needs in the region, and contributes to the development of the local community. The Bank, in conjunction with its subsidiaries, is determined to improve customer satisfaction by enhancing its asset quality and providing higher-quality financial products and services in various business areas. The Bank will endeavor to further contribute to the development of the region through these activities, and to gain a high reputation from shareholders and the financial market.

2. Dividend Policy

With regard to the interests of shareholders, the Bank subscribes to a belief in maintaining stable dividend policy, with a view to enhancing capital and preserving a sound management basis. In accordance with this policy, the Bank has decided to pay an interim dividend per share of ¥2.50, which is the same as that for the previous interim period.

3. Medium-term Management Strategy

The Bank is implementing "ACT 2003", a medium-term management plan designed to address the requirements of the new financial era. Our management policy under the plan is aimed at earning the solid confidence and support of customers as the highest-quality comprehensive financial service group in the region. The Bank and its subsidiaries are working together to achieve the following tasks outlined in ACT 2003:

(1) Financial Targets

The Bank aims to achieve net business income (before transfer to the general reserve for possible loan losses) of ¥80 billion, a capital ratio of more than 10%, and an overhead ratio (OHR) of less than 50% in Fiscal Year 2002, ending March 31, 2003.

(2) Objectives of ACT 2003

Task 1: Promptly establish a solid financial base

The Bank will solidify its financial base by upgrading its fund management capability, improving asset quality, and making operations more efficient. The Bank plans to create a sustainable earnings structure by further reinforcing its investment capabilities, centered on services to customers in the region, and increasing its fee and commission incomes through the development of new business areas, by the prompt disposal of non-performing loans, and by a commitment to cost reduction through more efficient operations.

Task 2: Strengthen and expand our customer base

The Bank will make efforts to enhance customer convenience and satisfaction by strengthening new channels such as the expansion of ATM facilities located in convenience stores, and the use of the Internet, and by developing new products and services.

Task 3: Renovate our management system

The Bank will reinforce its risk/profit management and compliance systems, proceed with management based on the principles of market discipline and self-responsibility, and will strengthen and expand its profitability by enhancing the collective competence of the Chiba Bank Group.

(3) Development of New Products and Services

The Bank will continue to work for the development of new products and the expansion of services in order to achieve the goals of this management plan. In April 2001, the Bank started to sell long-term fire insurance policies related to housing loans, income indemnity insurance policies for housing loan borrowers, and overseas travelers' personal accident insurance policies. The Bank also launched a new product, free maturity foreign currency time deposit (also known as "Free End"), which allows closure of deposit accounts at any time after a three-month grace period, and has added two new issues to its range of investment trust products, bringing their total up to 23 issues. With regard to loan products, the Bank started sales of the "Chibagin Card Loan - Quick Power", which a wide range of customers can obtain with very simple approval procedures. In IT-related services, the Bank began "Chibagin My Access", a new direct banking service, which has combined all of its telephone, mobile, and Internet banking services.

4. Issues to be Addressed

The Japanese economy has remained stagnant, and the environment surrounding financial institutions is increasing in severity due to the emergence of new business alliances and new entrants from different business sectors, together with the approaching implementation of ¥10 million limits on deposit guarantees by the government, as well as other factors.

Under these circumstances, the rapid disposal of non-performing loans is a priority for the Bank. The Bank has been carrying this out, while also considering it important that it strengthens its support to companies which have been badly affected financially, in view of the necessity of maintaining the sustainable development of the regional economy and society. For this reason, in October 2001, the Bank implemented a reorganization of its structure and established Credit Supervision Division II, which specializes in supporting companies in financial difficulties .

The Bank is also aware that the strengthening of corporate governance is an important matter. The most appropriate corporate governance system is being established, with due understanding of the intentions of the amended Commercial Code of Japan, and to comply more properly with such legal requirements. In addition, IR activities for our shareholders and investors will be actively continued, and transparency in management will be ensured.

With the commitments outlined above, the Bank will endeavor to implement thoroughly the various projects designed in “ACT 2003”, its medium-term management plan, uniting all of its subsidiaries’ abilities so that further trust and support may be gained from customers. The Bank will make sure that it not only strengthens its profitability and maintains sound assets—thereby making the financial base far more solid—but also that it responds quickly and precisely to increasingly diverse and sophisticated customer needs.

Business Performance

1. General conditions in the current interim fiscal term

As a result of efforts to expand the business base and the enhancement of the product range, the Bank achieved the following business performance in the current interim fiscal term:

(1) Income

Ordinary income decreased by ¥12.194 billion from the corresponding period of the previous year, to ¥109.931 billion, although the Bank tried to attain more efficient fund investment and financing. Ordinary expenses decreased by ¥10.238 billion, to ¥99.304 billion, due to streamlining of overall management. As a result, ordinary profit declined by ¥1.956 billion from the corresponding period of the previous year, to ¥10.626 billion, net income decreased by ¥1.739 billion, to ¥5.938 billion, and net income per share was ¥7.05. The Bank provided for depreciation and reserves based on the self-assessment of assets, and made write-offs of valuation losses for all issues of securities whose values as of the end of the period had declined by 50 percent or more from their book values, and on issues whose values as of the end of the period had declined 30-50 percent from their book value, where it was judged that the decline in market value was other than temporary at the end of the period.

(2) Movements of Major Accounts

Regarding deposits, the Bank tried to respond to customers' needs, and aggressively promoted business activities adhering to the needs of households. As a result, personal deposits have continued to increase, and the outstanding balance as of the end of the current six-month period rose by ¥132.6 billion from the corresponding period of the previous year, to ¥6.9122 trillion,

With regard to loans, the outstanding balance increased by ¥108.4 billion, to ¥5.7171 trillion, since the Bank has proactively provided many financial products and services, such as housing loans to customers in the region, amid a continued weak demand for funds. Investment in securities decreased by ¥32.3 billion from the corresponding period of the previous year, to ¥1.4554 trillion. Total assets increased by ¥2.4 billion, to ¥7.9451 trillion.

(3) Cash Flows

Consolidated cash flows from operating activities were minus ¥4.7 billion, due to an increase in loans, and cash flows from investment activities were plus ¥14.8 billion, attributed to the redemption and sale of securities and other items. Cash flows from financing activities were minus ¥19.1 billion, due to the repayment of subordinated borrowings. As a result, cash and cash equivalents decreased by ¥9.1 billion from the corresponding period a year earlier, to ¥146.9 billion. In addition, the risk adjusted capital ratio (BIS standards) declined by 0.24 percent, to 10.31 percent.

2. Business Projections

The Bank expects to register ¥210 billion in ordinary income, ¥16 billion in ordinary profit, and ¥8.5 billion in net income for the fiscal year ending March 31, 2002 (consolidated).

The Bank also anticipates ¥190 billion, ¥14 billion, and ¥7.5 billion in non-consolidated ordinary income, ordinary profit and net income, respectively.

Net cash provided by financing activities	(21)	(1)	(20)	92
IV. Effect of exchange rate changes on cash and cash equivalents	(21)	(1)	(20)	92
V. Net change in cash and cash equivalents	(9,117)	(131,213)	122,096	(107,859)
. Cash and cash equivalents at beginning of period	156,060	263,920	(107,859)	263,920
. Cash and cash equivalents at end of period	146,943	132,706	14,236	156,060

The 96th Interim Consolidated Balance Sheet (as of September 30, 2001)

(Millions of Yen)

Item	Amount	Item	Amount
Assets:		Liabilities:	
Cash and due from banks	157,400	Deposits	6,912,261
Call loans and bills bought	90,000	Negotiable certificates of deposit	97,020
CP and other debt purchased	373	Call money and bills sold	18,029
Trading assets	198,862	Trading liabilities	4,453
Money held in trust	10,987	Borrowed money	120,919
Securities	1,455,472	Foreign exchanges	312
Loans and bills discounted	5,717,143	Bonds	45,500
Foreign exchanges	2,298	Other liabilities	185,498
Other assets	172,977	Reserve for employee retirement benefit	22,887
Premises and equipment	115,636	Reserve for possible losses on loans sold	23,521
Deferred tax assets	97,503	Other reserves	70
Customers' liabilities for acceptances and guarantees.	130,797	Deferred tax liabilities	20
Reserve for possible loan losses	(204,270)	Deferred tax liabilities on premises revaluation	9,389
		Consolidated difference	1,238
		Acceptances and guarantees	130,797
		Total liabilities	7,571,920
		Minority interest:	
		Minority interest in consolidated subsidiaries	8,940
		Shareholders' equity:	
		Capital stock	121,019
		Capital surplus	98,178
		Premises revaluation excess	13,344
		Retained earnings	132,118
		Net unrealized gains on investment securities	1,059
		Foreign currency translation adjustment	43
		Total	365,763
		Treasury stock	(1)
		Shares of parent company held by subsidiaries	(1,439)
		Total shareholders' equity	364,322
Total assets	7,945,182	Total liabilities, minority interest and shareholders' equity	7,945,182

Notes to Interim Consolidated Balance Sheet

1. Japanese yen amounts less than one million have been omitted.
2. Transactions for trading purposes (for purposes of seeking to capture gains arising from short-term changes in interest rates, currency exchange rates or market prices of securities and other market-related indices or from gaps among markets) are included in Trading assets or Trading liabilities accounts on a trade date basis.

Trading securities and monetary claims purchased for trading purposes are stated at market value at the interim fiscal term end. Trading-related financial derivatives such as swaps, futures or options are stated at the estimated amounts that would be received or paid for settlement if such transactions were terminated at the interim fiscal term end.

3. Debt securities held to maturity are stated at amortized cost computed by the moving-average method (straight-line depreciation). Other securities (securities available for sale) whose current value can be estimated are stated at market value at the interim fiscal term end (sale cost being calculated by the moving-average method) and other non-marketable securities are stated at cost or amortized cost computed by the moving-average method. Unrealized gains and losses on securities available for sale are included in shareholders' equity, net of income taxes.
4. Securities included in the Money held in trust account, with the principal objective of securities portfolio management, are stated under the same method as described in notes 2 and 3 above.
5. Derivatives for purposes other than trading are stated at market value.
6. Depreciation of buildings and equipment of the Bank is proportionately stated, using the declining-balance method, over the estimated useful lives of the related assets, as follows:

Buildings: 6–50 years
Equipment: 2–20 years

The useful lives of the Bank's computers had previously been 6 years, but from the current consolidated interim period they have been changed to 4 years for personal computers (except those used as servers), and 5 years for other computers. This change has no material effect on the ordinary profit and net income before tax adjustment of this interim fiscal term.

The premises and equipment of consolidated subsidiaries are depreciated using the declining-balance method over the estimated useful lives of those assets.

7. Depreciation of internal-use software is computed using the straight-line method based on useful life determined by the Bank and its consolidated subsidiaries (5 years).
8. Foreign currency assets and liabilities, and all accounts of overseas branches (except shareholdings in consolidated subsidiaries and affiliates, which are required to be translated into yen equivalents at the exchange rate at acquisition of those shares), are translated into yen equivalents at the exchange rates prevailing at the interim fiscal term end.

The Bank had previously adopted the "New Foreign Exchange Accounting Standards", based on "Tentative Treatment of Auditing on continued Application of the New Foreign Exchange Accounting Standard in the Banking Industry" (Japanese Institute of Certified Public Accountant (JICPA), April 10, 2000), but from the current interim fiscal term, the Bank has adopted the revised "Accounting Standards for Foreign Currency Transactions," ("Opinions concerning Amendment of Accounting Standards for Foreign Currency Transactions, etc." (Business Accounting Deliberation Council, October 22, 1999)), other than the case of applying to the "Tentative Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in the Banking Industry" (Industry Auditing Committee Report No.20 of JICPA). The adoption of this standard has no material effect on securities, ordinary profit, or net income before tax adjustment of the current interim fiscal term.

With regard to fund swap transactions, the amount equivalent to the principals of receivables and payables translated into yen at the current exchange rate of the interim fiscal term end are stated on the interim consolidated balance sheet in accordance with "Industry Auditing Committee Report No. 20 of JICPA". Spreads between spot and forward rates reflecting interest rate differences in multiple currencies are accounted for as income or expenses in the interim consolidated statements of income on an accrual basis over the period covered by the fund swap transactions.

Fund swap transactions are a type of foreign exchange spot/forward swaps, which are arranged in multiple currencies for the purpose of funds lending or borrowing in a different currency. The transactions are used to convert the principal equivalent amount into spot foreign exchange bought or sold with regard to the corresponding funds borrowing or lending, and such transactions convert the corresponding principal equivalents and foreign currency equivalents to pay and receive, whose amounts and due dates are predetermined at the time of the transactions, into forward foreign exchange either bought or sold.

Foreign currency assets and liabilities of consolidated subsidiaries are translated into yen equivalents at the exchange rate prevailing at the interim fiscal term end of each company.

9. The reserve for possible loan losses of the Bank is provided in accordance with the prescribed charge-off and reserve criteria and is based on the “Guidelines for Examination of Internal Controls Related Self-Assessment of Assets of Banks and Other Financial Institutions and for Auditing of Write-offs and Loan Loss Provisions”, issued by JICPA as part of the Fourth Report of the Auditing Subcommittee for Banks and Other Financial Institutions.

For claims on debtors that are normally performing and claims on debtors under close observation, a reserve is provided based on the historical loss experience sustained for each type of claims over a specific period.

For claims on debtors that are currently not in actual or effective bankruptcy, but are viewed as having a high probability of going into bankruptcy, a reserve is provided for an amount considered necessary, based on the amount of claims net of proceeds expected to be recovered through the disposal of collateral and execution of guarantees.

For claims on debtors that are legally bankrupt or virtually bankrupt, a reserve is provided for the difference between the amount of the claims and the anticipated proceeds from the disposal of collateral and execution of guarantees.

A reserve for loans to specific foreign borrowers or foreign countries (including the reserve for overseas investment loss under the Article 55-2 of the Special Taxation Measures Law) is provided based on the amount of expected losses due to the political and economic situations of their respective countries.

All claims are assessed for their quality by the branches concerned, based on internal self-assessment standards. The Credit Assessment Office in the Audit & Inspection Division—which is independent of branches—subsequently conducts audits of their assessment, and reserves are provided based upon such audit results.

For performing claims, consolidated subsidiaries provide reserves for the amounts they deem necessary based upon historical loss experience. For specific claims doubtful in collectibility, they provide for a reserve for possible loan losses considering the estimated collectibility of such respective claims.

10. The Reserve for employee retirement benefit is the amount that is expected to arise as of the interim term end to provide for the payment of employees’ retirement benefits based on estimated amounts of the actuarial benefit obligation and the related pension assets. The expense processing method for differences based on actuarial calculation is as follows:

Differences based on actuarial calculation:

The difference in amount prorated using the straight-line method over a certain number of years (generally 10 years) within the employees’ average remaining working period at the time of the occurrence in each consolidated fiscal year is processed as a cost or income commencing from the following consolidated fiscal year. Some subsidiaries write off the cost as an expense in the year of occurrence.

The net retirement benefit obligation at the adoption of the new accounting standard, amounting to ¥20.385 billion, is being amortized using the straight-line method over 5 years. For the current interim fiscal term, the prorated amount multiplied by 6/12 is recognized as an expense.

11. The reserve for possible losses on loans sold is provided in the amount judged necessary, based upon the collateral value of loans (secured by real estate) sold to Cooperative Credit Purchasing Corporation, Ltd., or liquidated, and on the Bank’s assessment of the likelihood of future losses on sales of loans. This reserve is provided pursuant to Article 287-2 of the Commercial Code of Japan.
12. Finance lease transactions of the Bank and domestic consolidated subsidiaries (except for lease transactions deemed to transfer the ownership of leased equipment to lessees) are handled according to the regular accounting methods applied to ordinary rental transactions.
13. The method of hedge accounting is a “macro-hedge”, in which the Bank manages interest rate risk arising from such assets and liabilities as loans, deposits, and others with derivative transactions as a whole. The Bank applies a risk adjustment approach, deferred hedge accounting, based on the “Tentative Treatments in Accounting and Audit for Banks on Application of Accounting Standards for Financial Instruments” (Industry Audit Committee Report No.15 issued by JICPA). The effectiveness of hedging is reviewed for a reduction in interest rate risk exposure, and for the actual risk amount of derivatives within the permitted risk amount under the Bank’s risk control policies.

In addition to the macro-hedge accounting mentioned above, for certain assets and liabilities, the Bank applies deferred hedge accounting, or exceptional treatments permitted for interest rate swaps.

14. The National Consumption Tax and the Local Consumption Tax of the Bank and its consolidated subsidiaries are accounted for using the tax-excluded method.

15. Other reserves are stated as follows:
 Reserve for liabilities for securities transactions ¥70 million
 This reserve is established under the Article 51 of the Securities and Exchange Law and Article 35 of the Cabinet Office Ordinance.
16. Accumulated depreciation of premises and equipment totals ¥95.449 billion.
17. Advanced depreciation of premises and equipment totals ¥11.854 billion.
18. Loans to debtors legally bankrupt total ¥57.495 billion, and other delinquent loans total ¥257.306 billion.

Loans to debtors legally bankrupt represent those for which interest has not been accrued, because the payment of principal and interest has been delinquent for a certain period of time and deemed unlikely be collectible or payable (excluding portions already charged-off, hereinafter referred to as “non-accrual loans”), and loans which come under the definitions in Article 96, paragraph 1, subparagraph 3-(a) to (e) or subparagraph 4 of Enforcement Ordinance for Corporation Tax Law (Cabinet Order No. 97, 1955).

Other delinquent loans are non-accrual loans other than loans to debtors legally bankrupt, and to companies to which grace periods were granted for their interest payments, to assist their management restructuring efforts.

19. Loans past due 3 months or more total ¥22.903 billion.
 Loans past due 3 months or more mean loans for which principal or interest payments have been delinquent for 3 months or more since the day after the contracted payment date, and which do not come under loans to debtors legally bankrupt or other delinquent loans.
20. Restructured loans total ¥99.694 billion.
 Restructured loans are loans for which the Bank has granted concessions (e.g., reduction or forgiveness of interest, deferral of interest payment, extension of maturity date, debt forgiveness, and any other agreement favorable to borrowers, for the purpose of supporting their management restructuring efforts), and which do not come under the categories of loans to debtors legally bankrupt, other delinquent loans, and loans past due 3 months or more.
21. The total amount of loans to debtors legally bankrupt, other delinquent loans, loans past due 3 months or more, and restructured loans is ¥437.4 billion. The amounts mentioned in items 18, 19, 20, and 21 are before provision of the reserve for possible loan losses.
22. The face value of commercial bills and bills of exchange acquired by bills discounted is ¥85.359 billion.
23. Assets pledged as collateral are as follows:

Assets pledged	
Securities	¥206.762 billion
Loans	¥1.892 billion
Other	¥35.181 billion
Liabilities related to the above pledged assets	
Deposits	¥13.499 billion
Borrowed money	¥35.159 billion

In addition, securities of ¥105.504 billion and loans of ¥1.184 billion are pledged as collateral for exchange settlement, or as substitute for margin money for futures contracts.

Lease deposits of ¥7.849 billion are included in premises and equipment. Initial margin for futures contracts of ¥249 million, and receivables under securities borrowing transactions of ¥30.662 billion, are included in other assets.

24. Pursuant to the Law concerning Revaluation of Land (Law No. 34, enacted on March 31, 1998), land used for business operations has been revalued, and the revaluation excess net of income taxes is included in shareholders' equity. Income taxes related to this revaluation excess are included in “Deferred tax liabilities”.

Date of the revaluation March 31, 1998

Method of revaluation (set forth in Article 3, Paragraph 3 of the Law)

Pursuant to Article 2, Subparagraph 4 of the Enforcement Ordinance of the Law concerning Revaluation of Land (Ordinance No.119 enacted on March 31, 1998), the land price for the revaluation is determined based on the method established and published by the Director General of National Tax Agency, in order to calculate the land value for a base of determining the taxable amount subject to land value tax prescribed by Article 16 of the Land Value Tax Law, reflecting appropriate adjustments for land shape and timing of the assessment.

25. Subordinated borrowings of ¥75 billion, which are subject to a special provision that repayment of such borrowings is subordinated to repayment of other liabilities, are included in Borrowed money.
26. Bonds are subordinated bonds.
27. Net assets per share are ¥432.58.
28. The items related to market value of securities and gains (or losses) on valuation are as set out below.

Apart from “Securities”, included in these items are trading securities, negotiable CDs and commercial paper classified as “trading assets”, and negotiable CDs included in “cash and due from banks”. The same applies to the following items 29 through 31.

Trading securities

Amount included in the interim consolidated balance sheet: ¥194.903 billion

Valuation differences included in the interim consolidated statements of income: ¥10 million

Other securities with market values

	Acquisition Cost	Amount in the balance sheet	Differences	Gains	Losses
Stocks	183,629	179,897	(3,732)	26,643	30,375
Bonds	949,935	958,747	8,812	9,164	352
Government bonds	612,555	614,342	1,786	2,069	283
Municipal bonds	53,175	55,512	2,337	2,345	7
Corporate bonds	284,204	288,893	4,688	4,749	61
Others	293,188	289,534	(3,654)	4,035	7,689
Total	1,426,753	1,428,179	1,425	39,843	38,417

The amount of ¥1.059 billion, made up of ¥815 million (the above difference of ¥1,425 million, less deferred tax liabilities of ¥610 million), plus a ¥22 million minority interest and ¥221 million, the parent company’s equity share of unrealized gains on other securities held by equity method subsidiaries, is included in “unrealized gains (losses)”.

The Bank carried out a write-off of impairment losses on other securities with market value in the amount of ¥7.263 billion in the current consolidated interim period. A drastic decline of the market values of securities—which is a criteria for determining impairment losses to be written-off—means a 50 percent or more decline from acquisition cost, and a 30 percent or more and less than 50 percent decline from acquisition cost, plus assessment of higher credit risk exposure.

29. Other securities sold in the current consolidated interim fiscal term are as follows.

Amount sold	Gains on sales	Losses on sales
¥103.727 billion	¥1.762 billion	¥64 million

30. Details of securities without market values included in the interim consolidated B/S are as follows.

Contents	Amount in B/S
Other securities	
Non-listed stocks (excluding OTC-traded stocks)	¥7.016 billion
Non-listed foreign securities	¥12.294 billion
Private notes	¥6.125 billion

31. Repayment schedule of bonds with maturities are as follows.

	(Millions of Yen)			
	Due within 1 year	Due after 1 year through 5 years	Due after 5 years through 10 years	Due after 10 years
Bonds	390,631	498,067	34,141	42,033
Government bonds	333,890	230,268	10,183	40,000
Municipal bonds	2,573	46,743	6,195	-
Corporate bonds	54,167	221,055	17,761	2,033
Others	39,637	214,485	31,654	5,548
Total	430,268	712,552	65,795	47,581

32. A breakdown of money held in trust by purpose of holding is as follows.

 Money held in trust for investment

 Amount included in the interim consolidated balance sheet: ¥6,798 million

 Valuation differences included in the interim consolidated statements of income: ¥3 million

33. Loaned securities for which borrowers have rights of sale or pledge are included in “securities”, and total ¥10.984 billion.

34. Contracts for overdraft facilities and loan commitment limits are contracts under which the Bank lends to customers—up to the prescribed limits—in response to customers’ applications for a loan as long as there is no violation of any condition in the contract. The unused amount within the limits totals ¥1,220,709 million, including ¥1,205,886 million of which the term of contracts is less than one year or revocable at any time.

Since many of these commitments expire without being drawn, the unused amount does not necessarily represent a future cash requirement. Most of these contracts have conditions that the Bank can refuse the customers’ application for loans or decrease the contract limits with proper reasons (e.g. changes in financial situation, deterioration in customers’ creditworthiness). The Bank performs periodic reviews of customers’ business results based on the prescribed internal rules, and takes the necessary measures to reconsider conditions in contracts and/or require additional collateral and guarantees.

Other than the above, there are unused overdraft facility balances in multipurpose accounts in the amount of ¥ 922,297 million.

The 96th Interim Consolidated Statements of Income
(From April 1, 2001, to September 30, 2001)

(Millions of Yen)

Items	Amount
Ordinary income	109,931
Interest income	81,937
Interest on loans and discounts	66,984
Interest and dividends on securities	10,156
Fees and commissions	12,412
Trading income	268
Other business income	1,600
Other ordinary income	13,711
Ordinary expenses	99,304
Interest expenses	16,474
Interest on deposits	8,613
Fees and commissions	4,020
Other business expenses	147
General and administrative expenses	41,165
Other ordinary expenses	37,495
Ordinary profit	10,626
Extraordinary gains	1
Extraordinary losses	192
Net income before tax adjustment	10,436
Corporate tax, resident tax, business tax	3,190
Tax adjustment	1,509
Minority interest in loss	201
Net income	5,938

Notes to Interim Consolidated Statements of Income

1. Japanese yen amounts less than one million have been omitted.
2. Net income per share for the six months is ¥7.05.
3. Transactions for trading purposes are shown as “Trading income” or “Trading expenses” in the interim consolidated statements of income, on a trade contract date basis.

The gains and losses to be included in trading income and trading expenses are the sum of interest received or paid in cash during the current consolidated interim fiscal term, plus (i) in the case of securities and monetary claims purchased, the difference between the valuation gains or losses at the end of the previous fiscal term and the end of the current consolidated interim fiscal term; or (ii) in the case of derivative products, the difference between unrealized gains or losses equivalents arising from the deemed settlement at the end of the previous fiscal term and the end of the current consolidated interim fiscal term.

The following expenses are included in “Other operating expenses”.

(1) Provision of reserve for possible loan losses	¥17.404 billion
(2) Write-offs of equity securities, etc.	¥8.018 billion
(3) Retirement benefit expenses at the adoption of new accounting standard	¥2.038 billion
(4) Provision of reserve for possible losses on loans sold	¥1.129 billion

The 96th Interim Consolidated Statements of Retained Earnings
(From April 1, 2001, to September 30, 2001)

(Millions of Yen)

Item	Amount
Balance at the beginning of the fiscal year	128,324
Increase of consolidated retained earnings	1
Increase of retained earnings by reversal of gains on premises revaluation	1
Decrease of consolidated retained earnings	2,145
Dividends paid	2,105
Directors' bonuses	40
Net income	5,938
Balance at the end of the six-month period	132,118

The 96th Interim Consolidated Statement of Cash Flows
(From April 1, 2001, to September 30, 2001)

(Millions of Yen)

Items	Amount
I. Cash flows from operating activities	
Income before income taxes and others	10,436
Depreciation and amortization	2,290
Amortization and consolidation difference	(409)
Investment accounted for by the equity method	(53)
Net change in reserve for possible loan losses	3,604
Net change in reserve for possible losses on securities	(2)
Net change in reserve for losses on sales of loans	(7,243)
Net change in liabilities for employees retirement benefits	1,601
Interest income	(81,937)
Interest expense	16,474
Gains on investment securities	6,320
Gains on money held in trust	62
Foreign exchange gains	21
Losses on disposal of premises and equipment	182
Net change in trading assets	6,927
Net change in trading liabilities	(277)
Net change in loans and bills discounted	(108,431)
Net change in deposits	132,633
Net change in negotiable certificates of deposit	(101,217)
Net change in borrowed money (excluding subordinated borrowings)	(48)
Net change in loaned money (excluding deposits at BOJ)	20,930
Net change in call loans and bills bought and others	48,850
Net change in call money and bills sold	(142)
Net change in deposit collateralized for securities lent	(25,369)
Net change in foreign exchange (assets)	(4)
Net change in foreign exchange (liabilities)	53
Interest received	84,753
Interest paid	(17,196)
Others	3,534
Sub total	(3,652)
Income tax paid	(1,068)
Net cash provided by operating activities	(4,720)
II. Cash flows from investing activities	
Purchases of securities	(624,926)
Proceeds from sales of securities	110,427
Proceeds from maturity of securities	524,828
Increase in money held in trust	(12,465)
Decrease in money held in trust	18,579
Purchases of premises and equipment	(2,073)
Proceeds from sales of premises and equipment	437
Net cash provided by investing activities	14,808
III. Cash flows from financing activities	
Repayment of subordinated borrowings	(17,000)
Dividends paid	(2,105)
Dividends paid for minority interest	(82)
Purchase of own stocks	4
Net cash provided by financing activities	(19,183)
IV. Effect of exchange rate changes on cash and cash equivalents	(21)
V. Net change in cash and cash equivalents	(9,117)
. Cash and cash equivalents at beginning of period	156,060
. Cash and cash equivalents at end of period	146,943

Notes to Interim Consolidated Statements of Cash Flows

1. Japanese yen amounts less than one million have been omitted.
2. The scope of funds specified in the interim statements of cash flows corresponds to cash and due from Bank of Japan included in the account of “Cash and due from banks” of the interim consolidated balance sheet.
3. The reconciliation of cash and due from banks in the interim consolidated balance sheet to cash and cash equivalents at the end of the interim fiscal term is as follows.

Cash and due from banks	¥157.400 billion
<u>Due from banks (excluding BOJ)</u>	<u>¥10.456 billion</u>
Cash and cash equivalents	<u>¥146.943 billion</u>

Principles of Consolidation

1. Scope of consolidation

(1) Number of consolidated subsidiaries: 11

Names of consolidated subsidiaries

- Sobu Co., Ltd.
- Chibagin Cash Business Co., Ltd.
- Chibagin Accounting Service Co., Ltd.
- Chibagin Business Service Co., Ltd.
- Chibagin General Management Co., Ltd.
- Chibagin Loan Business Support Co., Ltd.
- Chiba International Ltd.
- Chiba Capital Funding (Cayman) Ltd.
- Chibagin Guarantee Co., Ltd.
- Chibagin Lease Co., Ltd.
- Chuo Securities Co., Ltd.

Chibagin Staff Service Co., Ltd. changed its name to Chibagin Accounting Service Co., Ltd.

(2) Non-consolidated subsidiaries

Names of principal non-consolidated subsidiaries

- Chibagin Computer Service Co., Ltd.
- Chibagin JCB Card Co., Ltd.

The elimination of total assets, ordinary income, six-month net income (based on owned interest), and retained earnings (based on owned interest) of the non-consolidated subsidiaries has no material effect to the extent that it would interfere with a reasonable judgment of the Chiba Bank Group's financial condition and business performance. Therefore, the amounts for non-consolidated subsidiaries are not included in the consolidated financial statements.

2. Application of the equity method

(1) Number of non-consolidated subsidiaries accounted for by the equity method: 7

Names of non-consolidated subsidiaries

- Chibagin Computer Service Co., Ltd.
- Chibagin JCB Card Co., Ltd.
- Chibagin Capital Co., Ltd.
- Chibagin Asset Management Co., Ltd.
- Chibagin Factor Co., Ltd.
- Chibagin DC Card Co., Ltd.
- Chibagin Research Institute Ltd.

(2) Affiliates not accounted for by the equity method: N/A

3. Interim fiscal term ends of the consolidated subsidiaries

(1) The interim fiscal term ends of the consolidated subsidiaries are as follows.

June 30: 2
September 30: 9

(2) Consolidation is based on consolidated subsidiaries' financial statements as of each end of interim fiscal term.

Necessary adjustments have been made for significant transactions carried out in the period between the above subsidiaries' interim fiscal term ends and the consolidated interim fiscal term end.

Segment Information

1. Business segment information

The Bank and some of its consolidated subsidiaries are engaged in securities and leasing businesses other than banking business, but these businesses as a percentage of total group businesses are very small. Thus, segment information by business is omitted.

2. Segment information by geographic area

The domestic share of ordinary income exceeds 90 percent. Thus, segment information by geographic area is omitted.

3. Ordinary income from international operations

The share of ordinary income from international operations is under 10 percent. Thus, ordinary income from international operations is omitted.

Production, Order Receipt and Sales

These matters are not stated, since there is no information coming under these items because of the special nature of banking businesses.

Securities (Market Value Information)

Note: In addition to “securities” in the interim consolidated balance sheet, negotiable certificates of deposit included in “Cash and due from banks” are also presented here.

1. End of the previous consolidated interim fiscal term (as of September 30, 2000)

(1) Bonds with market values held to maturity: N/A

(2) Other securities with market values

(Millions of Yen)

Type \ Period	As of September 30, 2000				
	Acquisition cost	Amount in the balance sheet	Valuation differences	Gains	Losses
Stocks	190,049	219,384	29,335	49,318	19,982
Bonds	838,598	843,289	4,690	6,458	1,767
Government bonds	559,637	560,755	1,118	1,962	844
Municipal bonds	74,649	75,082	433	1,228	794
Corporate bonds	204,312	207,451	3,138	3,267	128
Others	248,170	246,106	(2,063)	2,140	4,204
Total	1,276,818	1,308,781	31,962	57,917	25,954

Note: Book values are the market values based on the closing market prices at the end of the previous interim fiscal term.

(3) Main contents and amounts in the balance sheet of securities without market values.

(Millions of Yen)

	As of September 30, 2000
Other Securities	
Non-listed stocks (excluding OTC)	8,040
Non-listed foreign stocks	16,572
Private notes	5,697

2. End of the current consolidated interim fiscal term (as of September 30, 2001)

(1) Bonds with market values held to maturity: N/A

(2) Other securities with market values

(Millions of Yen)

Type \ Period	As of September 30, 2001				
	Acquisition cost	Amount in the balance sheet	Valuation differences	Gains	Losses
Stocks	183,629	179,897	(3,732)	26,643	30,375
Bonds	949,935	958,747	8,812	9,164	352
Government bonds	612,555	614,342	1,786	2,069	283
Municipal bonds	53,175	55,512	2,337	2,345	7
Corporate bonds	284,204	288,893	4,688	4,749	61
Others	293,188	289,534	(3,654)	4,035	7,689
Total	1,426,753	1,428,179	1,425	39,843	38,417

Note 1: Amounts in the balance sheet are the market values, based on the closing market prices at the end of the current interim fiscal term.

Note 2: The Bank carried out a write-off of impairment losses on other securities with market value in the amount of ¥7.263 billion in the current consolidated interim fiscal term. A drastic decline of the market values of securities which is a criteria for determining impairment losses to be written-off, means a 50 percent or more decline from acquisition cost, and a 30 percent or more and less than 50 percent decline from acquisition cost plus assessment of higher credit risk exposure.

(3) Main contents and amounts in the balance sheet of securities without market values.

(Millions of Yen)

	As of September 30, 2001
Other securities	
Non-listed stocks (excluding OTC)	7,016
Non-listed foreign stocks	12,294
Private notes	6,125

3. End of the previous consolidated fiscal year (as of March 31, 2001)

(1) Trading securities

(Millions of Yen)

Type \ Period	As of March 31, 2001	
	Amount in the balance sheet	Valuation gains included in income before income taxes
Trading securities	201,665	85

(2) Bonds with market value held to maturity

(Millions of Yen)

Type \ Period	As of March 31, 2001				
	Amount in the balance sheet	Market value	Valuation differences	Gains	Losses
Government bonds	3,997	3,999	1	1	-

Note: Market values are based on the closing market prices at the end of fiscal term.

(3) Other securities with market values

(Millions of Yen)

Type \ Period	As of March 31, 2001				
	Acquisition cost	Amount in the balance sheet	Valuation differences	Gains	Losses
Stocks	189,817	200,464	10,646	36,624	25,978
Bonds	977,788	986,833	9,044	9,143	98
Government bonds	702,662	704,682	2,019	2,112	92
Municipal bonds	50,999	53,220	2,220	2,220	0
Corporate bonds	224,125	228,930	4,804	4,810	5
Others	273,610	270,517	(3,093)	2,971	6,065
Total	1,441,216	1,457,814	16,597	48,740	32,142

Note: Amounts in the balance sheet are the market values, based on the closing market prices at the end of the previous fiscal year.

(4) Bonds held to maturity sold in this fiscal year (from April 1, 2000, to March 31, 2001): N/A

(5) Other securities sold in this fiscal year

(Millions of Yen)

Type \ Period	(From April 1, 2000, to March 31, 2001)		
	Proceeds from sale	Gain	Loss
Other securities	378,660	15,575	250

(6) Main contents and amounts in the balance sheet of securities without market values

(Millions of Yen)

As of March 31, 2001	
Other securities	
Non-listed stocks (excluding OTC)	7,329
Non-listed foreign stocks	16,483
Private notes	6,014

(7) Securities of which holding purpose was changed: N/A

(8) Repayment schedules of other securities with maturity and bonds held to maturity

(Millions of Yen)

Type \ Period	As of March 31, 2001			
	Due within 1 year	Due after 1 year through 5 years	Due after 5 years through 10 years	Due after 10 years
Bonds	526,085	414,669	46,725	9,364
